WarwickSASCo

Moulding The Future of Medical Plastics

5 reasons to choose Warwick SASCo

Recognised as the market leader in the design and manufacture of medical polyware

Wide range of high quality re-usable and single-use polypropylene products available

Unrivalled reputation for providing quality products, delivery and service to healthcare professionals worldwide

Re-usable products are guaranteed for a minimum of 1000 wash cycles – delivering excellent value for money

Certification since 1997 demonstrates our continued commitment to maintaining industry standards. Our quality management system complies to ISO13485 and ISO9001

◢ MADE IN BRITAIN

Warwick SASCo

For over 30 years Warwick SASCo has been part of evolving supply of decontamination and nursing products worldwide to hospitals, healthcare and patient nursing.

Recognised as a market leader, we have a reputation for high quality products designed for hospital decontamination and sterile services, operating and surgical applications, patient care and home nursing - where infection management and good user application is paramount.

Warwick SASCo's low cost reusable and single use product ranges are chosen by healthcare professionals and end users worldwide.

Our growing family owned business is proud to be represented by leading distributor partners in over 60 countries.

All our products are manufactured within the UK with Quality Assured Suppliers. Our customer support and distribution centre is in Warwick, England.

The team at Warwick SASCo is immensely proud of its reputation for delivering high quality products and a professional friendly service to you - our customer. You will find our experienced team are knowledgeable, caring and quick to respond to your requirements.

Darby Booth,
Managing Director – Warwick SASCo

Products Overview

Our wide range of reusable and disposable medical polyware products are chosen by healthcare professionals worldwide for their high quality and low cost.

Reusable
Medical Polyware

WARWICK RANGE

The Warwick Range for use in Decontamination Services, Operating Rooms, Surgeries, Clinics and healthcare services. Products are designed for repeated washing, disinfection and sterilization.

The Warwick Range of products can be processed by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).

Products comply with BS 5452 for Hospital Hollowware where applicable. Material used is polypropylene unless otherwise stated.

Single Use
Medical Polyware

STERILITE RANGE

Sterilizable lightweight polyware for single-use and disposable sets. SteriLite Range is designed for Custom Pack Manufacturers and Decontamination Services.

The Sterilite Range of products can be processed by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).

Material used is polypropylene unless otherwise stated.

Nursing & Care
Daily Living Aids & Accessories

SPA RANGE

Spa Range of personal living aids, patient care, toileting and bedside products.

Products comply with BS 2588 for Portable Sanitary Products and BS 3215 for Reusable Urinals where applicable.

Material used is polypropylene unless otherwise stated.

We work with a wide range of industry sectors including:

STERILE SERVICES & DECONTAMINATION

Operating Room, Instrument Packing

PERSONAL USE & HOME CARE

Daily Living Aids, Community Nurse, Incontinent Care

HOSPITALS

Surgery, Clinics, Wards, Veterinary, Dentistry

NURSING HOMES

Patient Care, Rehabilitation

CUSTOM PACK MANUFACTURERS

Single Use Packs, Contract Instrument Processing

WARWICK RANGE
Reusable Medical Polyware

The Warwick Range is a wide range of sterilizable long-life plastic polyware products.

Designed as an alternative to stainless steel products, they are ideal for use in Decontamination Services, Operating Rooms, Clinics, Surgeries and other surgical or healthcare services.

Products are designed for repeated washing, disinfection and sterilization. The Warwick Range of products can be processed by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).

Products comply with BS 5452 for Hospital Holloware where applicable.

Material used is polypropylene unless otherwise stated.

Warwick Benefits

- Low cost.
- Robust and hard wearing - guaranteed for 1000 cycles.
- Easy to clean - blood protein is easily removed from the surface, leaving no residue.
- 50% lighter than stainless steel, assisting users with storage, lifting and handling.

- Can be sterilized by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).
- Can be used as standalone items or as a support component in surgical sets.
- Widely used in Sterile Services for packing instrument sets and procedure kits for the autoclave.

- Disinfection sets can be used for manual sterilization in Sterile Services, Clinics, etc.
- Used non-sterile in hospital wards and clinics.
- Smooth corners and surfaces, reducing risk of paper rips and the need for re-processing.
- Autoclave sterilization temperature is 134.6°C + 2°C (generally referred to as 135°C).

STERILITE RANGE
Single Use Medical Polyware

The SteriLite Range is a wide range of single use plastic polyware products.

Designed to speed up packing and sterilizing procedures. SteriLite is ideal for use in Sterile Pack Manufacturing, Decontamination Services, Operating Rooms and Clinics due to its low cost, product design and performance in hospitals.

The Sterilite Range of products can be processed by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).

Material used is polypropylene unless otherwise stated.

SteriLite Benefits

- Low cost and disposable.
- No need to invest time and money into retrieval and decontamination after use.
- Clean and ready for sterilization.

- Can be sterilized by steam autoclaving at 135°C, Ethylene Oxide (EO) and Hydrogen Peroxide (H202).
- Can be used as stand-alone items or as a support (supplementary) component in operating rooms and surgical procedures.

- Widely used in Sterile Services for packing instrument sets and procedure kits.
- Used non-sterile in hospital wards and clinics.

SPA RANGE
Nursing & Care, Daily Living Aids and Accessories

Spa Range is a wide range of re-usable personal living aids, patient care, toileting and bedside products.

The Spa Range is designed for use in Hospital Wards, Rehabilitation, Nursing Homes, Community Care and for Personal Use in the Home.

Products comply with BS 2588 for Portable Sanitary Products and BS 3215 for Reusable Urinals where applicable.

Material used is polypropylene unless otherwise stated.

Spa Benefits

- Toileting products that preserve patient dignity and independence by empowering patients to toilet themselves with little or no assistance.
- Urinal Bottles specifically designed to the male and female anatomy for a comfortable and safe fit during use.
- Product design reduces risk of cross infection, unpleasant odours and sights.

- Easy to use, clean and disinfect, meaning both patient and carer can be confident that products are safe to re-use.
- Beakers and Drinking Cups are wide, easy to grip, non-scratch, drop-proof and have a nondrip rim.
- Handled beakers are ideal for patients with unsteady or infirm hands.

- Medicine Measures are sturdy, ideal for long-term use and regularly checked by Trading Standards for measurement accuracy and compliance.
- All Spa products can be cleaned in automatic washer disinfectors. Also suitable for hand washing using detergents and disinfectants.
- Urinal Pan SPN and Bedpans FPN, VPN, DPNF, BPN and CMP can be autoclaved.
